To Whom It May Concern:

For more than ten years, Sunshine Building Maintenance has provided janitorial service for Trinity Christian School. Six years ago, we built a new school and have continued to use Sunshine's service. Our student body is approximately 330 with a staff of 28. In addition, there is a very full after school rental use of the building.

I have known the principals of the company for the years they have served us, first as VP Administrator and since my semi retirement as Facilities Co-ordinator.

The management of Sunshine is very approachable and desire to maintain a positive relationship with Trinity. We have developed excellent communication over the years. As well, the cleaning staff on site has been consistent and very dependable. They are appreciated by staff and administration as if they were 'our own' staff.

We receive many compliments about the condition of our school building and we are pleased to recommend the service of Sunshine Building Maintenance to you.

Yours truly,

Ruth Palmateer

TCS Facilities and Rental Co-ordinator
