Re: Letter of Recommendation

Bob, this letter of recommendation confirms U. S. Steel Canada Inc.'s unqualified satisfaction with the cleaning services provided by Sunshine Building Maintenance.

Sunshine has been a valued partner of U. S. Steel Canada Inc. for the past 45 years. The quality of your work, and the professionalism of your staff, is outstanding at both the Hamilton and Lake Erie plant facilities.

Sunshine consistently responds immediately to all our service requirements, including unforeseen or emergency situations, and is willing to work closely with us to resolve any problems. Our demands are met on a more than timely basis.

During our disruptions, Sunshine was accommodating and responsive to adjusting service levels and delivery and continues to operate with a high respect for our partnership and cooperation.

In addition, Sunshine has strictly complied with U. S. Canada Steel Inc.'s Safety and Security Policies, which is an area in which there cannot be any compromise.

I would not hesitate to recommend Sunshine Building Maintenance to other large industrial organizations as I have full confidence in their ability to deliver on their commitments.

I would be pleased to speak further about this recommendation with anyone who is considering your services.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kevin Haughie", is written over a horizontal line.

Kevin Haughie  
Procurement Manager
